Transitioning from Summary UCR to IBR

In 1991 the Federal Government introduced a newer form of reporting crime statistics that they designated as a National Incident Based Reporting System (NIBRS). This incident based reporting (IBR) was designed to be more comprehensive in scope than traditional summary based UCR reporting. Transition from summary to IBR since 1991 has been slow, to say the least. In 2015 it was announced that after 2021 the Federal Government would no longer accept the older summary UCR reports, and would only accept IBR data.

In similar fashion, *Crime in Maine* will continue to transition over the next few years. Beginning with the 2018 report, *Crime in Maine* has begun to publish IBR data for those agencies in Maine that have already transitioned to the newer reporting system and reported a full 12 months of IBR data.

In past years, *Crime in Maine* translated IBR data from the few Maine agencies submitting IBR back into summary UCR format, a task that is both time intensive and also results in not being able to fully display all the additional data provided by IBR. This was done to provide an even comparison between IBR and summary UCR reporting agencies across the state. However, due to the time commitment to translation, coupled with the fact that more agencies continue to transition to IBR data submission as we near 2021, this will be the last year *Crime in Maine* translates IBR to summary UCR data.

What this means for readers is that on the following pages you will see some basic IBR information from the 56 law enforcement agencies in Maine that submitted IBR information for all of 2020. You will also see those agencies again reported in the summary UCR pages with translated summary UCR data, as you always have. Beginning next year, you will only see IBR reporting agency data in the IBR section of the publication, and only see summary UCR reporting agency data in the summary section, until the planned full transition to IBR statistics is complete for all agencies in Maine. In addition, as more agencies transition to IBR we will expand upon the IBR data tables to provide a more comprehensive data set utilizing IBR statistics.

Thank you to the 56 agencies who have completed the transition to IBR. For those agencies who transition to IBR part-way through the past year, your IBR statistics will begin with next year's *Crime in Maine*. We look forward to seeing the IBR portion of this publication expand as the transition continues over the next few years.
